SIR OR MADAM:

DECLARATION OF PRIOR INVENTION PURSUANT TO 37 C.F.R. § 1.131

This Declaration is being filed contemporaneously with a Response to the October 27, 2005 Final Office action for Application serial number 09/873,094.

(Continued on next page.)

*S/N: 09/873,094
Docket No. 10005949-1
Declaration of Prior Invention under 37 CFR 1.131*

1 Declaration of Prior Invention pursuant to 37 C.F.R. § 1.131

2 Preliminary Remarks

3 The undersigned Declarants (also Inventors herein) respectfully assert that U.S.
4 Patent Application Publication No. 2001/0037267 ("Sato") is not valid prior art with
5 respect to the claims of the pending Application. The Declarants hereby submit this
6 Declaration pursuant to 37 C.F.R. § 1.131 in order to establish invention of the subject
7 matter of the pending claims 1-36 (inclusive) prior to February 13, 2001, the effective
8 date of Sato in the United States. The Declarants further assert that all pending
9 rejections under 35 U.S.C. §§ 102 and 103 of the instant claims 1-36 over Sato (alone,
10 or in combination with any other reference or references) are rendered moot in view of
11 this Declaration.

12
13 Accompanying Exhibits

14 The following Exhibits accompany this Declaration in support of the Statement of
15 Facts as presented below:

- 16 (A) Copy of invention disclosure No. 10005949 signed July 14, 2000;
17 (B) Copy of invention disclosure No. 10010415 signed October 24, 2000;
18 (C) Copy (redacted) of Request for Quote and Engagement Letter Agreement
19 bearing docket No. 10005949-1 signed December 13 and 18, 2000;
20 (D) Copy of Attorney cover letter to joint Inventors dated April 20, 2001;
21 (E) Copy of Attorney cover letter to joint Inventors dated April 24, 2001; and
22 (F) Copy of Ex Post Declaration of Express Mailing dated June 1, 2001.

23
24 (Continued on next page.)
25

1 Statement of Facts

2 (1) An invention disclosure No. 10005949 (Exhibit "A") was completed, signed
3 and dated by joint Inventor Travis J. Parry on July 14, 2000. Therein, Inventor Parry
4 describes subject matter incorporated in the Claims of the instant Application. Exhibit
5 "A" was also received by the Assignee of the pending Application, Hewlett-Packard
6 Development Company, on July 14, 2000 as evidenced by the RECEIVED stamp borne
7 thereon.

8 (2) An invention disclosure No. 10010415 (Exhibit "B") was completed, signed
9 and dated by joint Inventor Robert Sesek on October 24, 2000. Therein, Inventor Sesek
10 describes improvements to the subject matter of Exhibit "A" and makes specific
11 reference thereto. Improvements described in Exhibit "B" are incorporated in the Claims
12 of the instant Application. Exhibit "B" was received by the Assignee of the pending
13 Application on November 17, 2000 as evidenced by the DATE RCVD within the header
14 thereof.

15 (3) A Request for Quote and Engagement Letter Agreement (Exhibit "C")
16 bearing docket No. 10005949-1 was transmitted between the undersigned Attorney
17 John S. Reid and the Assignee. Therein, Attorney Reid quoted specific consideration
18 (redacted) for preparing an Application for Patent to be filed with the Office
19 corresponding to the subject matter of Exhibits "A" and "B". Thus, Application docket
20 No. 10005949-1 corresponds to the subject matter of Exhibits "A" and "B". Attorney
21 Reid signed and dated Exhibit "C" on December 13, 2000. Steven R. Ormiston, legal
22 representative for the Assignee, signed and dated Exhibit "C" on December 18, 2000.

23 (4) A cover letter (Exhibit "D") was signed, dated and transmitted to the joint
24 Inventors Travis Parry and Robert Sesek by Attorney Reid on April 20, 2001. Exhibit
25 "D" specifically refers to an attached draft Application for Patent corresponding to the

S/N: 09/873,094

Docket No. 10005949-1

Declaration of Prior Invention under 37 CFR 1.131

1 subject matter of docket No. 10005949-1. Exhibit "D" requests that the joint Inventors
2 Parry and Sesek review and provide comments regarding the associated draft
3 Application to Attorney Reid.

4 (5) A cover letter (Exhibit "E") was signed, dated and transmitted to the joint
5 Inventors Parry and Sesek by Attorney Reid on April 24, 2001. Exhibit "E" refers to an
6 attached second draft Application for Patent corresponding to the subject matter of
7 docket No. 10005949-1. Exhibit "E" requests that the joint Inventors Parry and Sesek
8 review and provide comments regarding the associated second draft Application to
9 Attorney Reid.

10 (6) An Ex Post Declaration of Express Mailing (Exhibit "F") was completed,
11 signed and dated on June 1, 2001. Exhibit "F" corresponds to the filing of the instant
12 Application with the Office on June 1, 2001, by way of deposit with the U.S. Postal
13 Service as Express Mail No. EK485225643US. Exhibit "F" specifically refers to docket
14 No. 10005949-1 and thus corresponds to the subject matter of Exhibits "A" and "B".
15

16 Summary of Declaration

17 The Declarants respectfully assert that the foregoing Facts, as supported by
18 corresponding Exhibits "A" through "F" (inclusive), demonstrate inventive conception
19 and due diligence with respect to the subject matter of claims 1-36 of the pending
20 Application from a time prior to, during, and after February 13, 2001, the effective date
21 of the Sato reference. As such, the Declarants further assert that Sato is not valid prior
22 art with respect to claims 1-36 of the pending Application.

23 Therefore, the Declarants hereby respectfully request that Sato be removed as a
24 prior art reference against respect to claims 1-36 of the pending Application, and that
25

S/N: 09/873,094
Docket No. 10005949-1
Declaration of Prior Invention under 37 CFR 1.131

that all pending rejections of claims 1-36 under 35 U.S.C. §§ 102 and 103 over Sato
(alone, or in combination with any other reference or references) be withdrawn.

Description of Invention: Please preserve all records of the invention and attach additional pages for the following. Each additional page should be signed and dated by the inventor(s) and witness(es).

- A. Description of the construction and operation of the invention (include appropriate schematic, block, & timing diagrams; drawings; samples; graphs; flowcharts; computer listings; test results; etc.)

Have a frequent-printing rewards program for use with HP Digital cameras and printers.
"Print so many photos from your HP Digital Camera and receive rebates or incentives on toner and paper." You can even offer free printers for printer X amount of photos from your HP Digital Camera. The printer can print out rebates downloaded from the web or printed from memory.

- B. Advantages of the invention over what has been done before.

Increases consumables usage and thus profit for HP.

- C. Problems solved by the invention.

Increase profit.

- D. Prior solutions and their disadvantages (if available, attach copies of product literature, technical articles, patents, etc.).

None. Lexmark has a deal where you can buy X-amount of ~~forever~~ cartridges and get the printer free.

Description of Invention: *Please preserve all records of the invention and attach additional pages for the following. Each additional page should be signed and dated by the inventor(s) and witness(es).*

A. Description of the construction and operation of the invention (include appropriate schematic, block, & timing diagrams; drawings; samples; graphs; flowcharts; computer listings; test results; etc.)

This disclosure is an improvement to disclosure #10005949 "Frequent printing rewards" by Travis Parry (previous disclosure is attached). This solution enhances the previously submitted solution by taking advantage of HP consumable e-label information. The frequent printing rewards for printing from the HP digital cameras could be paid only for printing which utilized genuine HP consumables or the rewards could be paid at a higher differential rate for using HP consumables. Number of photos printed information could even be stored in the e-label consumables along with other usage information that is currently captured.

B. Advantages of the invention over what has been done before.

Allows HP to limit rewards to customers using genuine HP consumables. Allows HP to get customer specific usage data, allowing HP to better design products for customers' actual usage models.

C. Problems solved by the invention.

Enables HP to reward customers for using HP consumables. Enables HP to gain additional customer usage data.

D. Prior solutions and their disadvantages (if available, attach copies of product literature, technical articles, patents, etc.).

Current solution does differentiate between HP consumables and non-HP consumables for rewarding customers for frequent printing.

Re: First Draft of Patent Application for
"Methods And Apparatus For Promoting Use
Of Consumable Goods in Imaging Devices"

PDNO 1000-4305-1 5949
Our ref: HE03-P30

Dear Messrs. Parry and Sesek:

Please find attached a first draft of the above referenced patent application, including drawings. Although the attached drawings are in informal format, formal drawings will be filed with the U.S. patent Office.

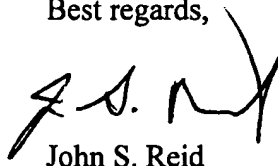

Please review the attached draft and provide me with your comments regarding any necessary revisions. Hewlett-Packard's Legal Department has asked my firm to file this application directly with the U.S. Patent Office by May 7, 2001. Accordingly, I would appreciate receiving your **comments by May 2** at the latest in order to ensure that there is sufficient time to make any revisions and submit them for your review. Also, since I will need to obtain your signatures on a Declaration to be filed with the application, can you please let me know if you will be out of the office during the week of April 30?

Regarding the enclosed specification, you will note that there is a rather long description regarding apparatus that can be used to implement the methods of the invention. This has been included to demonstrate that the technology does in fact exist to practice the methods of the

invention. Further, in light of the present trend of the courts to generally limit the scope of patent claims to what is disclosed in the specification*, I have included a somewhat rambling narrative of various alternative ways of practicing the methods of the invention. Finally, certain paragraphs in the detailed description may appear as rather odd summaries of the methods and apparatus. These paragraphs, which paraphrase certain of the claims, have been included to provide support in the detailed description for terms used in the claims. The Summary section, as well as the Abstract, are also written in this format.

Please feel free to call me with your comments.

Best regards,

A handwritten signature in black ink, appearing to read 'J.S. Reid', with a stylized flourish at the end.

John S. Reid

*Re: Revised Draft of Patent Application for
"Methods And Apparatus For Promoting Use
Of Consumable Goods in Imaging Devices"
PDNO 10005949-1
Our ref: HE03-P30*

Dear Messrs. Parry and Sesek:

Please find attached a second draft of the above referenced patent application. This revised draft incorporates your comments from the first draft. Text that has been added is indicated by double underlining, while deleted text is indicated by strike-through. I have also included copies of the formal drawings, which have been revised in accordance with your comments. I would like to thank you for your careful and thoughtful review of the first draft, and for attending to it in such quick order.

I look forward to receiving your comments on this revised draft. Please recall that this case is scheduled for filing with the U.S. Patent Office by May 7. Since I still need to arrange a review with HP Legal in advance of your signing the declaration, I would appreciate receiving your comments as soon as is convenient. Please feel free to call me with your comments.

Best regards,

John S. Reid
